

Hello,

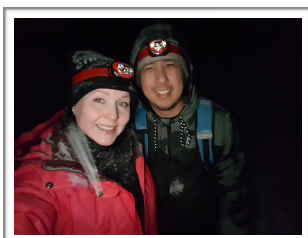

We are Vashti and Brad, and we are so excited to be growing our family through adoption. We want to be parents because we are a loving, stable, supportive and fun couple who want to provide a really good home to a child. We love kids, and we have so much love in our hearts to give to a child. Thank you, so much, for taking a look at our profile!

We cannot imagine how hard it must be for you to have such a difficult choice to make, and we really respect and admire your strength and courage in making such a selfless decision in considering adoption. We would be so honoured to be considered as a family for your child, and we want you to know that if you do choose us, we will always put your child first, and will provide attention, support, warmth, fun and unconditional love.

A Little About Us:

We met through Vashti's sister-in-law. We were friends for a couple years before we started dating, so we got to know one another well, and we fell in love. We got married on Hallowe'en, in 2015, and our marriage has been very happy and stable since! Our ceremony was a regular ceremony, but our reception was a Hallowe'en costume-required celebration! Though we aren't religious, we love to celebrate holidays such as Christmas, and Easter (as well as Hallowe'en) with our family and friends, as family and friends are extremely important to both of us. Any chance we get, we try to get together with family and friends, as we both love to keep those connections strong.

Our family and friend group is very large, supportive, loving, and diverse. They are all very excited to meet our future child.

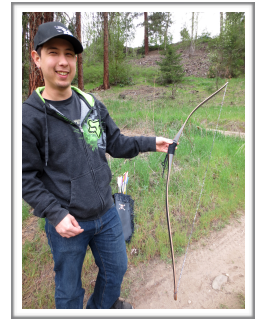

Interests:

We love to spend as much time together as we can. Every year we take part in 3D Archery shoots and edible mushroom picking with Brad's family. We also love to get away and go camping, hiking, geocaching, and really would like to start exploring ghost towns in BC. We like to keep our minds sharp, and do as many Escape Rooms as we can. We enjoy biking, bowling, even board games with our siblings. During winter, we like to snowshoe.

About Brad:

Brad has his Red Seal license for Automotive Mechanics. His work often takes him up North, but the shift work allows for a lot of quality time together with Vashti and his family every month! He loves the outdoors, and enjoys taking out his quad, camping, cycling. He even went skydiving with Vashti's mom!

What Vashti loves about Brad is that he is strong, calm, confident and supportive. He is also honest, kind, and loving, is a very hard worker, and is always ready and willing to lend a hand, and try to solve any problems that arise for Vashti, or any other family member or friend for that matter. All these traits that she loves about him as a husband, would also make him an amazing father!

About Vashti:

Vashti has her Bachelor of Science, with a Biology Major, but has worked in Housekeeping for many years, which gives her the freedom to take quality time off when Brad is home. Their goal is for her to be a stay-at-home mom when their child comes along! She is a huge animal lover, and really enjoys reading, journalling, and photography.

What Brad loves about Vashti is that she is kind, loving, intelligent, punctual, and fierce. But he feels that no words can tell how great she actually is. He feels incredibly lucky to get to share his life with her, and knows she will make an excellent mom.
