Enhancing Lives - Connecting Communities

A Decade of Impact

Build Family Wellness

For ten years, KCR Community Resource's **Family Hub** has been a trusted place where families come to find support, understanding, and connection. What began as a simple idea, creating a welcoming, low-barrier, one-stop space for families, where many community partners, experts in their fields, bring their services to families has grown into a vital community anchor building family wellness in Kelowna, now serving over 12,000 visits each year.

A Moment to Grow

West Kelowna is one of the fastest-growing communities in the region, home to young families and those seeking a more attainable place to live. While the community has grown, access to local supports has not kept pace.

Services exist, but often require complicated transit across the bridge to the Kelowna location.

It's an added expense, takes time, and creates unnecessary barriers.

The Family Hub, a collaborative, families first model is a proven success, and one thing is clear: **the Model works.**

And now, it's time to bring it closer to more families.

Help us bring this service across the Bridge
